## NORTH ALABAMA'S CITIES COOPERATE IN THE EXPOSITION

Entire Schools District  
Expected To Be Well  
Represented

## EXHIBITS ARE BEING PLANNED

Local Industries Will  
Demonstrate Their  
Manufacture

That the entire Muscle Shoals District will be well represented at the coming Industrial Exposition there is no doubt. Other places are preparing exhibits to send to this important industrial event and everything points to a most representative industrial gathering of this well known section. Owing to the fact that Albany-Decatur is centrally located in the Muscle Shoals District the citizens of this section can readily motor to the exposition in a few hours time and many will attend the various events from day to day.

The fact that the government, state, county and the railroads are all co-operating in sending exhibits and are lending their support to make it an industrial event that will show the great industrial opportunities of the Muscle Shoals District is most encouraging and greatly adds to the importance of the exposition.

Among the other towns that will send exhibits is Courtland which has many interesting things to exhibit. Hartsville is considering sending an exhibit and will undoubtedly be well represented and Florence and other places will probably be represented. A letter from W. P. Williams, manager of the Florence Times, assures the Twin Cities of their co-operation in getting out a large crowd from the Tri-Cities to attend the exposition.

The Albany Hosiery Mills are making arrangements for installing some machinery at the exposition that they may manufacture the finished product there. The Albany Textile Mill is also making arrangements to exhibit their silks. The iron and steel product of the Decatur Corncorn and Roofing Company will be exhibited, and the many important products of this industry will be shown.

Many of the other industries of this section will exhibit their products and the manufacturers exhibits will be most interesting.

The exposition headquarters are in the auditorium of the Albany-Decatur Chamber of Commerce in Albany and telephone communication may be had by asking for Exposition Headquarters.

## CITIES MAY BE ON 'AIR MAIL' ROUTE

Officials Are Meeting  
In Birmingham With  
Representatives

Possibility that Albany-Decatur may be on the air mail route from New Orleans to Chicago loomed today as representatives of several Southern cities met in Birmingham with officials of the postal department.

The route, as selected tentatively, and for which the Southern cities are asking that air mail service be established, probably would cause the mail planes to fly directly over Albany-Decatur, in making the jump from Birmingham to Nashville. Unless the Twin Cities get bus, however, it is hardly likely that mail will be dropped here.

The following Associated Press dispatch from Birmingham tells of the visit there of the officials:

BIRMINGHAM, Ala., April 7.—Principal cities touched by proposed air mail route, between Chicago and New Orleans, tonight will present their claims here before Colonel Paul Henderson, second assistant postmaster general, in charge of the air mail service.

Colonel Henderson will be entertained at a dinner to be attended by local business interests and committees from Louisville, Nashville, Montgomery, Mobile and New Orleans.

## News Is Received of Mrs. Benson's Death

News was received late Monday afternoon of the death of Mrs. Benson at Forest Home, Alabama. Professor W. W. Benson of the Decatur schools was at the bedside of his mother when she came.

The Decatur schools closed today at noon in respect of the sorrow that has come to Mr. Benson. The action was taken by the board of education.

No information could be learned regarding the funeral arrangements.

## State Director Laboratory Here

Dr. L. C. Havens of Montgomery, state director of the laboratory, was the guest here today of Dr. A. J. Perolio, director of the Tennessee Valley laboratory. Dr. Havens is enroute to Memphis to attend a meeting of the Southern Laboratories convention.

## PALS OF CHAPMAN BLAMED FOR FIRE AT STEUBENVILLE

## ACT OF REVENGE IS POLICE VIEW

Proprietors Appeared  
As State Witnesses in  
Chapman Trial

(Associated Press)  
STEUBENVILLE, O., April 7.—That the Stanton Motor company garage fire here this morning, which resulted in the complete destruction of the building and 30 automobiles with an estimated loss of \$200,000, was started by former associates of Gerald Chapman, notorious bandit, is the belief of city authorities who are investigating.

The garage is owned by William Snyder and Miss Katherine Bourne, who were state witnesses against Chapman at his recent trial in Hartford, Conn.

It is believed that associates of Chapman fired the garage as an act of revenge.

HARTFORD, Conn., April 7.—"The reprisals will begin I guess," says State's Attorney Hugh M. Alcorn, who prosecuted Gerald Chapman, when told today of the burning of a garage in Steubenville, O., owned by two witnesses for the state in the Chapman murder trial.

N. O. Freedman, junior counsel for Chapman, said he could not see what aim Chapman's pals could have in starting the blaze.

## I. O. O. F. BANQUET ENJOYED MONDAY

More Than 100 To  
Be Initiated In Big  
Ceremonial

A delightful banquet was enjoyed Monday night at the Decatur Cafe by the members of the Twin City Club of the United Order of Splendor Perfection. After the banquet a social hour was enjoyed when the president Sam W. Foster presided as toastmaster and a number of good talks were made.

Quite a number will go to Birmingham Wednesday to attend a ceremonial when more than 100 members will be initiated. Those enjoying the banquet last night were: Sam W. Foster, L. H. Pearson, A. W. Burnett, H. V. Reuhl, F. Frank Lewis, M. L. Breeding, H. L. Davidson, J. H. Nuss, Jas. B. Smith, Joe L. Plimmings, J. A. Jennings, J. W. McCracken, J. R. Pylant, Geo. W. Martin, B. C. Dodd, D. T. Howell, A. L. Hargrove, R. B. Mangrum, W. S. Patterson, J. L. Buchanan, Jno. E. Moody, E. H. Akers, J. M. Clark, Jimmie James and W. L. Hatchett.

## Cadets and Others Fight Forest Fire

(Associated Press)  
BLACKSBURG, Va., April 7.—Fifty Virginia Polytechnic Institute cadets and more than 100 townsmen left today for the scene of a forest fire in the mountains, four miles northwest of here, where 150 houses and several sawmills are menaced by flames which have raged uncontrollable for four days.

While the town of Blacksburg and Virginia Polytechnic Institute grounds are not yet threatened a half dozen towns and sawmills are directly in the path of the fire, and they will be devoured unless the flames are checked.

Millions of Dollars a  
Year in Traffic  
Say Police

## LEADERS NAMES ARE REVEALED

Books Kept Like Big  
Business Firms  
Are Located

(Associated Press)  
CHICAGO, April 7.—Evidence of a liquor and vice syndicate which police said had been doing business of millions of dollars a year was found here yesterday in a raid on its headquarters when eight men were arrested.

Records of wealthy liquor customers, names of bribed prohibition officers, accounts of beer deliveries and details of the channels whereby liquor was brought from rum fleets off New York, Miami and New Orleans were confiscated.

The raiders said they found an accounting system as efficient as that of a big business concern.

Several thousand dollars in checks including one for \$15,000 from a Northside drug store were seized. Among the papers was a telephone toll bill of \$287 for calls to New York, Miami and New Orleans.

John Patton, former mayor of Burnham, a suburb, one of those arrested was charged by Sergeant Edward Birmingham of the raiders, with having offered him \$5,000, "to forget the bookkeeping system." The others arrested, police said, were underworld leaders, several with police records.

The office suite had a doctors name on the door and the first room entered was fitted up like a physician's reception room. Shelves were stocked with half pints of liquor available for prospective customers to take to their own chemists for analysis.

In the scrupulously itemized account books detectives said were listed names of more than 200 well known Chicagoans and many large hotels as patrons. Customers of ale, beer and liquor in the city and in outlying towns details of the management of four breweries, accounts of deliveries of carloads of beer and liquor and the cost system used in smaller houses.

Search was made after the raid for the alleged heads of the syndicate whose names were revealed, police said, through the records.

They were said to be men well known in underworld circles and frequently questioned by police in vice operations.

## TWIN CITY VOTERS BALLOTING TODAY ON BRIDGE ISSUES

Voting Early in Day Is  
Light But Casting of  
Ballots is Steady

## TABULATION TO BE VERY RAPID

Results Likely Will Be  
Known Before Eight  
O'clock Tonight

Citizens of Albany-Decatur went to the polls today to decide the fate of the proposed bond issues of \$50,000 for each municipality; the proceeds from the issues to be used by the state in construction of a bridge across the Tennessee river, here.

Voting in the several polling stations during the earlier part of the day was not unusually heavy, but voters were coming in fairly steadily throughout the day and it was believed that an impressive total would be cast.

Election officials would not hazard any opinion regarding the outcome of the balloting. Leaders of the campaign for the issues said, however, they saw no reason for lack of confidence in the result.

Votes probably will be tabulated rapidly, the ballots having only two questions, "yes" and "no" permitting the election officials maximum rapidity in their count. It was believed that the result in Decatur where the polls close at five o'clock, would be known by six o'clock. In Albany, where the polls close at six o'clock, the result probably will be known shortly after seven.

Even if the totals are not established then, it was thought the counting would have progressed far enough to indicate definitely whether or not the bonds had received the approval of the citizenship.

The election was considered one of the most important in the history of the Twin Cities and there was widespread interest, not only here, but all over the state, in the outcome.

## FIFTY MEMBERS OF GROTTO MAKE TRIP

Great Ceremonial Is  
Being Held Today  
In Birmingham

Fifty members and candidates for membership in the Kamram Grotto left this morning for Birmingham over the Louisville and Nashville to attend the ceremonial being held in that city today. This number did not include the members and candidates from other North Alabama cities in the valley.

The Albany-Decatur Grotto club has been planning for some months for an excellent attendance at the meeting and will probably have one of the largest representations, outside of the city of Birmingham proper, at the ceremonial.

The members attending the ceremonial are expected to return to the cities tonight at the conclusion of the rites.

## Albany Children Examined Today

In 1901, the Dodge brothers were poor mechanics. They went into partnership with Henry Ford. Later they sold their Ford holdings and began manufacturing a car of their own.

## AIR PLANE CARRIER LAUNCHED TUESDAY

Newest Navy Addition  
World's Fastest; Is  
Largest of Type

(Associated Press)

CAMDEN, N. J., April 7.—The Saratoga, the world's swiftest airplane carrier, was launched at the New York shipbuilding corporation yards at 1:18 p.m., today.

As the newest addition to the American navy started to gracefully slide into the Delaware river, the mother of warships, Mrs. Curtis D. Wilbur, wife of the secretary of the navy, gave the great ship her name. When completed and commissioned late in 1926, the Saratoga will be the largest and fastest aircraft of its kind in the world.

It will be the longest naval vessel of any design in the world.

The Saratoga is 874 feet long, with a beam of 105 feet. Her electric power plant is designed to develop 180,000 horsepower, greater than the combined rated output of six electric driven battleships now in commission, the New Mexico, the Tennessee, the Maryland, the Colorado and the West Virginia.

She will have a speed of 33 knots an hour and a flying deck reaching from stem to stern. The Saratoga will be driven by huge electric motor, the power being guaranteed by turbines operated by steam from 16 oil-fired boilers. She will carry eight-inch rifles, the limit of size for ships of her type under the treaty, and will weigh more than 33,000 tons.

The power plant of the new naviant would be capable of supplying the electrical needs of a city of nearly 1,000,000 inhabitants.

## County Court Not To Be Held Apr. 20

The session of county court, scheduled to be held beginning April 20, has been postponed by Judge W. T. Lowe. No new date has been set for the term. Several reasons were assigned for the postponement, including the fact that federal court now is in session in Huntsville, a long term of circuit court in Morgan has just been concluded and farmers need the time now for planting of crops.

The court will take up the criminal and civil docket when the new date is set.

## TELEGRAM TO ALLAY DOUBT

State Will Pay All the  
Amount Necessary  
Over \$100,000

Construction of the bridge across the Tennessee River at this point should be started by July 1st, according to a telegram received today from Senator John A. Rogers, chairman of the state highway commission.

The announcement will gladden the hearts of the bridge advocates who have worked so earnestly in an effort to have the gigantic project thrown across the Tennessee River at this point. Even today, as the bond issue is being carried over the cities, there has been some talk of the failure of the highway commission to begin work immediately following the passage of the bond issue and the placing of the necessary \$100,000 in the hands of the highway commission. This telegram should allay all doubts that have arisen from time to time regarding the sincerity of the commission in the matter.

The following is the telegram as received from Senator Rogers:

Albany-Decatur Daily  
Albany, Ala.

Your bridge will be advertised by May 20. Advertisement runs for thirty days. Construction should begin by July 1st. Bridge will cost approximately \$425,000. You are to put up \$100,000. The state will pay all over this amount.

JOHN A. ROGERS,

Chm. State Highway Commission.

In a resolution that was adopted some months ago the state highway commission specified that when there was placed with or under the control of the State Treasurer of Alabama the sum of \$100,000, for the purpose of building a bridge, and the commission be so advised by the State Treasurer, all proper and needful orders an preliminary proceedings for the construction of a good, substantial and adequate bridge of a standard type and design, twenty feet wide across the Tennessee River, as aforesaid are to be immediately made and instituted, and the bridge to be built with all reasonable dispatch.

It was further stated that while it was not ascertained, that it was likely that the legislature of 1927 would refund the money that was placed with the state treasurer by the cities as their part in the construction of the magnificent structure.

The action that has been taken by the state highway commission is being looked upon by local people with favor and feeling has been expressed that the state highway commission is doing all in its power to eliminate the weaknesses in the highway chain over the state.

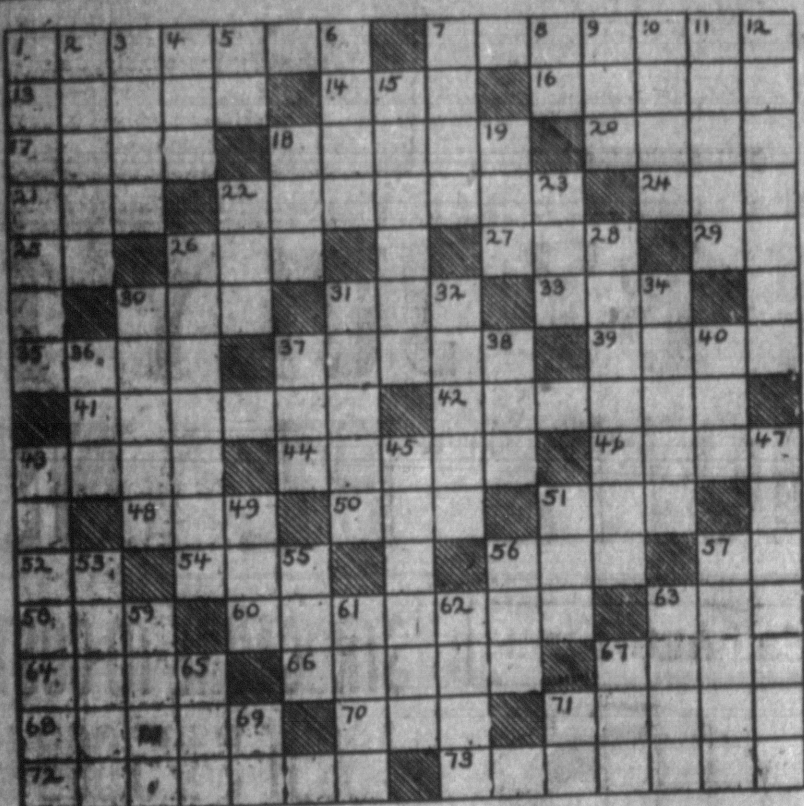

## Absentee Ballots Received By Court

A number of absentee ballots have been received by the probate court for today's bridge bond election. Other ballots were expected to be received in mails during the day. Shortly before noon a tabulation showed that 37 ballots had been received for Albany and 18 for Decatur.

The ballots will be given to the Decatur box and to Albany box four for counting before the polls close in the respective cities.

## How to Solve It

Every number indicates the beginning of a word—if horizontal, crosswise, until the first shaded stop to the right; if vertical, downwards until the first shaded stop below. Compare the synonyms in the appended lists to the spaces in the diagrams and fill in the words you know. These will give you clues to the more difficult words. When completed the words should interlock perfectly.

AlbanyFuneral Services  
For T. W. Irwin Held  
Tuesday Morning

(Abilene, Texas, Reporter)

The funeral of Tandy Walker Irwin was held at the residence, 1343 South Fourth street, Tuesday morning at ten o'clock. Rev. W. M. Pearce pastor of the First Methodist church, conducted the services. A chorus of mixed voices sang "Jesus, Lover of My Soul" and "Asleep in Jesus" in a most effective manner.

Mr. Irwin was the son of Dr. and Mrs. W. B. Irwin and was born at Hillsboro, Alabama, January 13, 1869. After two years of ill health he died suddenly of heart failure on last Saturday afternoon at 7 o'clock. He is survived by his wife and by three sisters and three brothers, Mrs. Willie Preunt, Mrs. W. G. Griffin, Miss Jessie Irwin, D. W. Irwin, Sam Irwin and Greek Irwin all of Alabama. Messrs D. W. Irwin, Sam Irwin, Mrs. O. F. Sensabaugh, and Mrs. B. F. Clement, were present at the funeral.

Mr. Irwin was a member of the Methodist church from his youth and always considered his church obligations as sacredly binding.

The active pall bearers were Buford Ellis, Geo. Minter, Austin Boyd, Lester Ellis, S. S. Boutwell and C. M. Lovelace.

## IN MEMORIAM

He looked upon sin as the enemy of all good, and did not believe that any man could go into the presence of his maker with one unforgiven sin and expect to be rewarded with a place at His right hand and a home with the good.

He was liberal in his support of the enterprises of the church and never lost an opportunity of doing good. He was never critical or uncharitable in his views. He held his own opinions with great tenacity but accorded to others the same privilege.

He was plain, modest, unassuming in habits and manner. There was no hypocrisy about him. He was of that dependable type of citizens that are absolutely essential to the preservation and perpetuation of all that is good in our civilization. In the home in the church and in the community, he filled a place that will do honor to his memory. One had to know him well to appreciate his sterling qualities for he was reserved and not easy to become acquainted with. When conversing with him one discovered those elements of true manhood.

Girls Need Help of  
St. Joseph's G. F. P.

Their Health and Happiness in Life After  
After Life Depends on Successful Change From Girlhood To Womanhood.

The time when girls are developing into womanhood is one of the most important periods in their lives because of the bearing it has on their future years. It is at this time that girls should be happiest and the lasting friendships of life are made which so often ripen into love.

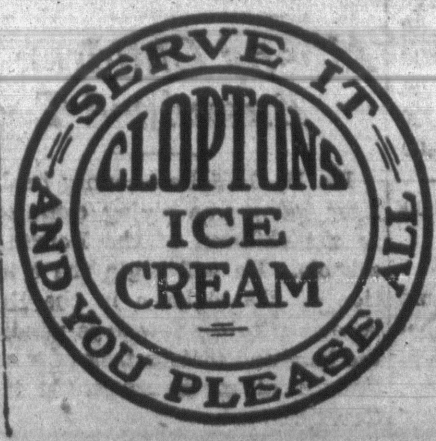

Irregularly cramping spells, headaches, backache and that awful feeling of depression and listlessness at this time are sure signs that the delicate female organs are not coming into their functions as nature intends they should.

If something is not done to restore these organs to the proper condition, the unfortunate girl will certainly suffer much unnecessary pain and embarrassment, besides the loss of much valuable time from school and other duties in addition there is real danger that the state of weakness, bad health and pain which starts at this time will continue through many years of her after life.

A condition known now as catarrh of the generative organs has fastened itself on the delicate organs of the girl who is slowly but surely dragging her into a miserable life.

That is the reason for the phenomenal success G. F. P. is having in building up women and restoring them to health, with plenty of vitality, energy and youthful buoyancy. It quickly and surely overcomes and stamps out that dreaded enemy of women—catarrh of the generative organs.—Advt.

Delegates have been appointed by Mayor Skeggs to attend the good roads meeting in Birmingham April 24-25.

### SPACE SELLERS PROVE FAITH IN ADVERTISING BY BECOMING BUYERS

"Did our newspapers cheat American business men when they sold them upwards of six hundred million dollars' worth of advertising space last year? inquires the Chicago Tribune, which very promptly answers in the negative and submits proof to substantiate its contention.

The Tribune recently has published a very interesting document, dealing with the question of advertising and showing how large space sellers have, in turn, become large space buyers.

Beginning with itself, the Tribune announces that in the past five years, that newspaper has spent a total of approximately \$4,000,000 in advertising. Of this total, the Tribune used its own space to the extent of more than \$2,000,000 in exploiting the paper as a publicity medium. Other periodicals shared in the appropriation to the extent of more than another million.

What advertising has done for itself, the Tribune sums up as follows: "With bragadocio which may irritate you, it must now be pointed out that the Chicago Tribune has the largest advertising revenues of any newspaper on earth and that this distinction is inseparably connected with the tabulation above. . . . four million dollars' worth of space in five years. The Chicago Tribune not only sells advertising, but believes in advertising and buys advertising."

### SENATE LATITUDE SEEMS TO MAKE TALK CHEAPER THERE THAN IN HOUSE

The sensational attack by Vice-President Dawes on the senate rules, which permit "one man to talk a bill to death, has focused attention on the parliamentary regulations of the august and dignified "upper house." The Associated Press prepares an interesting article on the length of some of the outstanding orations delivered in the senate in recent years.

The Associated Press says:

The unofficial record is held by Senator La Follette of Wisconsin. Speaking on a currency measure, on May 29, 1908, he held the floor for 18 hours and 20 minutes.

A 15-hour speech is credited to Senator Falkner of West Virginia, on January 16, 1891, when the Force bill was under discussion. Senator Allen of Nebraska on October 11-12, 1893, engaged the attention of the senate for 14 hours on the repeal of the silver bill; and a similar period was consumed by Senator Carter of Montana on March 2-3, 1901, while discussing a rivers and harbors measure. Senator Jones, republican, Washington, made a 15-hour and 35 minute speech on February 8-10, 1915, during consideration of the ship purchase bill, Senator Burton of Ohio spoke for 12 hours and 10 minutes on a rivers and harbors bill on September 18-19, 1914; and Senator Smoot of Utah is credited with a speech extending 11 hours and 35 minutes on July 22, 1913, when Underwood tariff measure was under debate.

The same article points out that the house can lay claim to no such prolonged debates. The house rules do not provide for unlimited debate and when a congressman discovers that he must deliver a speech, the house rules requires him to limit his suggestions for saving the country to two hours and a half.

In other words talk in the senate comes cheaper than it does in the house. In most cases in recent years, the senate's discussions have been worth a great deal less, at that.

### FARM BUREAU COTTON ASSOCIATION SENDS CHECKS TO ITS MEMBERS

The Alabama Farm Bureau association is completing the payment of \$2,000,000 to its members for cotton which has been disposed of by the Association from last season's production, according to announcement made in the Bureau's publications. It had been anticipated that checks would be mailed out, beginning April 1.

However it was found possible to begin the mailing of these checks some days earlier and members of the office force worked diligently to complete the task.

The cotton association movement, while no old thing in Alabama, appears to be meeting with a fair share

of success, in that attainment of its object—orderly marketing of the crop. Those lending to the bureau their help and co-operation declare that when the bureau reaches the maximum of its objective, the dumping of cotton on the market in the fall will be eliminated and instead, growers of the staple will be enabled to sell their cotton, as the demand develops thereby preventing to a large extent, the frequent costly tumble in prices, which usually catch the producers at the most inopportune times.

The payment now being completed brings the price paid to bureau members already to approximately 19 cents, it was stated, basis middling white cotton.

Members probably will receive two more checks, Mr. Kernachan, president, announced. Definite announcement of future payments cannot be given, however, he emphasized.

Mr. Kernachan said also that rumors start around about this season every year as to what the final settlement will be. He reiterated a previous announcement that such rumors are without foundation because no one can say just what the final figure will be until all the cotton is sold and the books balanced. Therefore, members are urged to pay no attention to such rumors. The Association has handled all cotton in the best possible way and members will profit accordingly.

### PRESIDENT'S REPORT SHOWS GAIN OF ALABAMA IN EDUCATIONAL LINES

The annual report of President E. M. Shackelford of the Alabama Education Association, made at the annual conference now in session at Mobile, shows great activity on the part of that organization during the past year.

Realizing that Alabama has an unenviable position almost at the bottom of the list of states in educational rank, and desiring to let the people of the State know that their children do not have the advantages that children in other states have, the A. E. A. at its meeting in Montgomery last year adopted resolutions calling for a publicity campaign to acquaint the people with the facts.

To carry out the orders of the Association and launch a publicity campaign the Executive Committee established an office in Montgomery with Secretary H. G. Dowling in charge.

The slogan "Give the People the Facts" was adopted and the plan has been endorsed by various fraternal, religious, civic, professional and business organizations of the State.

The report made by President Shackelford commented upon the progress Alabama has made in education in the last few years and gave many statistics in proof. For example, the state funds since 1885 for elementary and high school education has increased from \$3404,949 to \$3,500,000; the per capita amount from \$0.73 to \$4.36; the school term from 87 to 123.1 days; salaries have increased from \$112 to \$482 per annum; and illiteracy has decreased from 50.9 per cent to 16.1 per cent. Between 1910 and 1920 public support for elementary and secondary education increase 325.5 per cent, which was a little above the average recently given by Atticus Mullin show an increase from 1921 to 1924 of 36.8 per cent in the amount spent for elementary and high school education, and for all other branches and kinds of education an increase of 1.54 per cent.

Another encouraging thing commented upon is the educational system of the State. The educational machinery of Alabama is regarded as about the best in the country and costs less than many others, less than 1 per cent of the education funds being spent in 1920 for administration purposes, whereas in some of the other states the cost of administration ranged from 5 per cent to 9 per cent of the funds. There is need only for money to make her machinery effective, and, as Alabama is potentially one of the wealthiest states in the Union, she can educate her children and give them a vision and the energy to convert her potential wealth into actual wealth.

The report then proceeded to give what it termed the "discouraging facts" and said that while this progress has been made in Alabama other states have made progress also and kept Alabama relatively in the same position she was a generation ago. "There is," the report claims "a lamentable amount of ignorance not only among the people but even among the teachers relative to Alabama's status and needs." Then followed a long list of statistics showing Alabama's comparative standing, among which were the following: "Alabama ranks lowest among the states in per capita expenditures for education, lowest in ratio of expenditures to income, lowest in ratio of taxes to income, 40th in the ratio of educational expenditures to income, 44th in proportion to trained teachers, and 46th in literacy.

The report further showed that if Alabama were to spend on her 856,866 children of school age the average per capita for the nation (\$39.98 against Alabama's \$12.13) it would require \$48,516,825 instead of the present \$14,720,047 to place her schools on an equality with the average of the states. 28.9 per cent of the children of Alabama are not in school, whereas in the United States only 9.4 per cent are not in school, and only 16.55 per cent of the children of the Southern States are not in school.

While education, like everything else, is more expensive now than formerly, the records show that Alabama spent 26 cents less per capita from state funds for education in 1923-24 than in 1922-23 and 23 cents less in 1924-25 than in 1923-24. If other states barely keep educational expenditures in ratio with increase in population, Alabama is dropping still farther behind, and this continues so because she has lowest tax ratio in the Union.

When compared with the twelve Southern States, Alabama ranks 6th in per capita expenditures for education, 6th in teachers' salaries, 9th in length of school term, 9th in percentage of trained teachers, 10th in school attendance, and 11th in support of teacher-training institutions.

Of the 36 counties of the State that have reported, 18 have cut their school terms short this year because of a lack of funds, eight of those counties having only five months or less.

The University of Alabama, according to the report, \$550,000 increase in ten of its departments to bring it up to the national average; Auburn needs an increase of \$189,880 per annum to put it on an average with similar southern institutions; Montevallo gets just half as much as the average for similar southern institutions; while the normal schools of Alabama need an average increase of \$105,873 to put them upon an equality with the average of the Union and an increase of \$62,944 to put them on an equality with other southern states.

To secure funds for greater educational facilities new sources of revenue must be found, as already the county and district taxes in a large number of counties have reached their constitutional limit. "The poverty of the state," continues the report, "is already bearing far more than its prorata share of the burden of taxation. Luxuries, franchises, incomes, privileges, and other intangible assets must be the sources of large revenues in the future.

## Only 9 Prisoners In County Jail Now

There are only nine prisoners in the Morgan County jail now, according to a report today of Deputy Sheriff Frank Poole. The number stood at seven until the weekend when Mattie Smith, negro woman, was placed in jail on a charge of assault with intent to murder and a white boy was placed in the jail on a charge of carrying a concealed pistol.

**KURFEES GRANITOID FLOOR ENAMEL**

"Put it on today - walk on it tomorrow"

It does not take experience to get good results with Granitoid. It spreads easily without that sticky pull that tires the arms, and without showing laps and brush marks. Granitoid covers the old finish so completely that you'll be pleasantly surprised—it lasts so long that you, too, will say, "it wears like granite."

Made in 8 rich colors: Oak, light gray, tan, dark brown, buff, slate and mahogany. It's ready to use. All you have to do is open the can, dip your brush and—before you realize it, the job is done!

**KURFEES**

### Inexpensive—Beautiful

All your ideas of floor enamel will be changed when you see the beautiful results of Granitoid. It's an artistic finish. It dries quickly and forms a granite-like surface, glossy as porcelain.

It represents the best efforts of a manufacturer who, for twenty-five years, has confined his efforts to quality products. It will delight you.

We believe it is the best floor enamel made, and will be glad to show you actual samples of its work.

### TRINITY MISSIONARY SOCIETY

The regular business meeting of the Woman's Missionary Society of Trinity was held on Monday afternoon at the home of Mrs. Charles Emens.

The meeting opened with the splendid old hymn, "Jesus Calls Us O'er the Tumult," and was followed by a prayer by Mrs. W. A. Emens. The president then took the chair and conducted the Devotional services, a part of the sixth chapter of Luke being read and the 36th verse used as the main thought. "Be Ye Merciful as your Father also is Merciful."

Splendid reports were made by each of the officers for the quarter just ending and plans were made for a bazaar to be held in the front part of Emens store on Friday before Easter. Delegates were elected to the District Conference that will convene in Cullman on May 5th. Then a beautiful letter was read from the Conference secretary, Mrs. Wilson, written while she was attending the Council in Tulsa, Okla.

This was a well attended meeting and the meeting closed with the Society's motto.

### Tired and Achy This Spring?

DOES every day bring you throbbing backache and stabbing, rheumatic twinges? Are you lame and stiff? weak, nervous—all tired out?

Then look to your elimination! Active kidneys tend to keep the blood-stream clean and pure. Defective kidney action allows harmful waste matter to accumulate and poison blood and nerves. Constant backache is apt to follow, with rheumatic pains, stiffness, lameness and annoying kidney irregularities.

If your kidneys are inactive, help them with a tested diuretic. Use Doan's Pills. They are recommended the world over. Ask your neighbor!

### HERE IS ALBANY PROOF

J. T. Niager, 1725 Sixth Ave., S., says: "I had pains shooting through my back when I got in a bent position. I had a heavy, dull ache across my back, which gnawed right into me. My kidneys acted too freely and I had to get up during the night to pass the secretions. I used Doan's Pills and they cured me."

## ATE TOO FAST

South Carolinian Took Black-Draught For Indigestion, and Says He Could Soon Eat Anything.

Ballentine, S. C.—Mr. W. B. Bouknight, of this place, gave the following account of his use of Theodor's Black-Draught.

"Just after I married I had indigestion. Working out, I got in the habit of eating fast, for which I soon paid by having a tight, bloated feeling after meals. This made me very uncomfortable. I would feel stupid and drowsy, didn't feel like working. I was told it was indigestion. Some one recommended Black-Draught and I took it after meals. I soon could eat anything again."

"I use it for colds and biliousness and it will knock out a cold and carry away the bile better and quicker than any liver medicine I have ever found."

Eating too fast, too much, or faulty chewing of your food, often causes discomfort after meals. A pinch of Black-Draught, washed down with a swallow of water, will help to bring prompt relief. Bloating, sensations, eructations, bad breath and other common symptoms of indigestion have disappeared after Black-Draught has been taken for several days. NC-164

### Fate Plays a Prank on Freddy Lindstrom; Hero of Series Will Not Be a Regular

Fate plays just as strong a role in the business of baseball as it plays in any business on earth. Take a fellow who is going in great style slides into third one afternoon and breaks a leg and is banished from baseball forever. It is no fault of his own, just plain downright hard luck. Think of the great Christy Mathewson who hurled for the Giants for years lead an outdoor life and finally developed tuberculosis. Some call it hard luck, but its plain everyday fate.

Now the hand of fate has been laid upon Freddy Lindstrom, the stellar performer at third base for the National League champions of a year ago. Lindstrom vied with Walter Johnson in the last world series for being the most popular man playing baseball in the great series. His performances were somewhat miraculous. There wasn't a man in either league who could fill the bill at third base any better than Lindstrom.

When the majors open, the Giants will have the aged and decrepit Heinie Groh back at third base with Lindstrom decorating the bench. This follows the wonderful showing that the youthful third sacker made last year in the greatest series known to the baseball world. Now Lindstrom must remain on the bench to watch the veteran Groh perform. A fine lot for a man who has given his best and been recognized as one of the

best players ever donning a uniform.

"The Washington Senators defeated the Giants at Birmingham on Monday before a crowd of 9,000 fans. Walter Johnson went to the hill and gave the Magic City folks a chance to see the greatest pitcher of all time in hurling stance. Bucky Harris did his bit with the mace getting four safe blows out

of five trips to the plate.

## Announcing Our New Ten-Pay-Plan *of Selling Society Brand Clothes at Ten Payments Instead of One*

**A**N extraordinary service inaugurated by us for the convenience of the vast number of responsible men in this community who are accustomed to purchasing homes, automobiles, radios, insurance, investment securities on the deferred payment plan. The only difference in our new plan and those used in buying homes, automobiles, etc., is that we do not charge interest, brokerage or service charge, but have absolutely one price for the cash, regular charge, or the ten-pay plan.

The ten payment plan puts the finest clothing within the reach of men who ordinarily find it inconvenient to make a single payment of \$40 to \$65 at one time.

In anticipation of the response that this unusual opportunity offers, we have prepared the largest selection of Society Brand Clothes that this store has ever shown. Among the new fabrics featured for spring in the smartest models are the Sandtones, Piping Rocks, Azure Blues, Broadmoors.

Make your selection of any Society Brand Suit in our stock. Pay one fifth of the regular selling price and the balance in ten weekly payments.

### Here's How It Figures:

\$40.00 SOCIETY BRAND SUITS  
You pay **\$8.00** when purchased and **\$3.00** weekly

\$45.00 SOCIETY BRAND SUITS  
You pay **\$9.00** when purchased and **\$3.50** weekly

\$60.00 SOCIETY BRAND SUITS  
You pay **\$12.00** when purchased and **\$5.00** weekly
